ARTWORK & DIGITIZING

Send us artwork of any kind, from a hand drawn napkin sketch to a professional digital file. Our fully dedicated team of graphic artists will turn the art into a high-quality, full color design. If you only have a concept, our creative service team can assist you with creating the image you desire to bring your brand to life. We will send you a full color sketch card with thread and fabric color swatches attached for you to approve or correct, or you can receive a finished e-sample.

PATCHES & HEAT TRANSFERS

All Penn Emblem patches and ID tags can be sewn or heat applied in house. Products can be heat applied to any item such as garment bags, scrubs, hats and more. Low-Melt Backing heat seals at low temperatures without doing damage to the garment.

PennTrans™ Heat Transfers utilize the latest print technologies to produce bright, vivid colors with fine detail, while also being suitable for a wide variety of fabrics and sub straights. They are easy to use, lightweight and have fast turnaround times.

INNOVATION

PENNFLEX™

PennFlex™ is a sophisticated, thermoplastic emblem that creates a superior, three-dimensional effect for any design. With many customization options, such as a matte or metallic finish, PennFlex™ exceeds standard emblem expectations with its high definition, lightweight and flexible design.

DIRECT EMBROIDERY

Direct embroidery is the most economical and fastest production style of embroidery techniques. The process begins with a digitized file of your logo or design, then, using 100% polyester threads in a wide variety of colors, we embroider directly to any garment of your choice. Penn Emblem is a PSST Sanmar Supplier, so whether you provide us with your apparel or workwear, or you select it from our inventory, Penn Emblem can create and stitch your design directly onto any garment, cap or accessory.

Screen printing is an extremely popular method of embellishing imprint and promotional products, especially for t-shirts, hoodies, bags and other types of garment. This process is known for being efficient and versatile and can be done on virtually any surface. It involves ink transferring onto your selected wearable by images being laid out onto special mesh screens for each element of your design and each color of the design is then applied with ink layer by layer. Screen printing is ideal for cotton polyblend designs with an 8-10 color capacity.

- MUGS
- THERMOS CUPS
- WATER BOTTLES
- PINS
- NAME TAGS
- BADGES

Dye Sublimation on your promotional products is easy and cost effective. It is used primarily on 100% Polyester garments or man made products. It is best used with white or grey goods and is ideal for bicycle jerseys, shorts, socks, foam trucker hats, bandanas, masks, mugs, key chains, promotional products and more.

PRODUCT HIGHLIGHT

SILICONE

Silicone Emblems and Transfers are one of the most trending design techniques of the year. These 3D, flexible, smooth emblems are durable in harsh conditions and never fade over time. The intricate, raised details make silicone emblems a modern and unique addition to apparel, bags, shoes, promotional swag and more!

Your favorite brand, a work uniform, a sports team jersey, your school's name or organization's logo — whatever you represent, Penn Emblem represents you — through innovation, quality and family legacy, we will create and decorate your vision.

Penn Emblem is a full-service branded apparel and promotional product decoration company. With over 50 different decoration options, over 76 years of experience, 13 markets served, and 4 global locations, we are America's largest supplier and brand decorator for the rental uniform and promotional product industry.
